

control: energy costs

SmartProcure™

As a business owner, it is incredibly time consuming to manage your company's energy costs while trying to understand what rates to lock down for your contracts and how to manage your network charges. Remove the hassle with Eutility's SmartProcure™ and take control of your energy costs for good.

In association with Eutility Trading AFS Licence No: 480703

Control Your Energy Costs

Imagine having access to experienced and skilled analysts, able to analyse and manage your company's energy usage, network charges and demand charges – who will then take this information to market to acquire you the best available rates. That's what we call SmartProcure™. The benefits are substantial, including your company having access to all pricing offers to ultimately enable you to enjoy the biggest savings. Clients also have access to our online SmartView® services. This one-stop shop provides your company with its data usage, bills and contracts around the clock – independent of the retailer. Each month, we post extensive energy data online which enables your business to create sophisticated and accurate reporting and analysis with ease.

Over 30 Years of Knowledge

Eutility has more than 30 years of experience tracking and managing the energy costs of thousands of Australian businesses. You can trust our experience, as well as the in-depth knowledge of our analysts who will inform you exactly what you should be paying for your energy supplies and negotiate you the best electricity and gas costs on offer. It's time to take control of your energy costs – explore our SmartProcure™ service today.

Analytics and Know How

How can you be sure you are locking down the lowest available rates? Eutility uses its SmartProcure™ system to deliver you multi-year price offers as well as full analytical reports so you can decide what is best for your business moving forward. Since 1979, we have maintained billions of dollars' worth of energy contracts across Australia and New Zealand. The in-depth relationships we have formed with retailers, as well as the price movements, statistics and data we have collated along the way, enables us to secure you the lowest possible electricity and gas rates when negotiating with providers.

What is SmartView®?

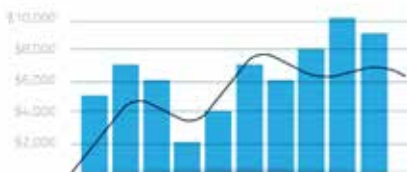

SmartView® is a complementary service to our energy procurement systems. The real-time online interface allows you to view and manage your energy bills, contracts, monthly data management and live energy data feeds at the click of a mouse. To help you keep track, the service also delivers you analysis, reports and statistics. Please refer to our SmartView® brochure for detailed information on this unique service.
